Mersey-Forth Water Management Review

Program Commitments

Facilitate fish migration at Paloona Dam

Collaborate to improve flood planning and response

Collaboratively address erosion at Lake Barrington

Support the sustainable management of water quality in the Mersey River

Endeavour to maintain higher water levels at Lake Gairdner during key holiday periods

Rehabilitate land at Lake Mackenzie impacted by hydropower infrastructure

Improved communication processes for recreational releases

Upgrade signage

Provide lake and river flow information on the web

Ongoing awareness education to address the threat of aquatic pests and pathogens

Better manage Aboriginal Heritage values using a state-wide Action Plan

Collaborate in a co-ordinated approach to manage recreation

Hydro Tasmania
The power of natural thinking
